

An adventure awaits™

# HOMESCHOOL 2018

## January 3rd - Winter Survival

Learn how both humans and animals survive the harsh conditions of winter.

## February 7th - Animal

### Transformations

Many animals change their shape or appearance sometime during their life in order to survive.

## March 7th -

### Behind the Scenes

What does it take to care for the animals at Wildlife? Come meet the dedicated team and find out.

## April 4th - Feeding Frenzy

Discover how and why animals have adapted to eat certain foods. We will also explore the human impact on animal health, and vice versa.

## **\*\***May 2nd - Fish On!

Join us for a day of family fun at the lake. Supplies provided, but feel free to bring your own!

Run time: 1-4pm

## June 6th - Earth's Biomes

Identify the world's main biomes, their location, and key features. From the tundra to the tropical forests, and everything in between.

## July 4th - Folktales

Myths, legends, fables, and folklore. We will read and discuss stories such as 'The Fox and the Crow', and 'The Hare and the Tortoise'.

## August 1st -

### Endangered Species

Learn about ecosystems, food webs, and how humans have affected the environment. How can we protect endangered species in our area?

## September 5th -

### Animal Enrichment

Do you enjoy getting presents? Come help us make a few for our animals and see their reactions.

## October 3rd -

### Fossils

Fossils provide a valuable record of plants and animals from millions, even billions of years ago. Let's go find a few!

## November 7th - Fur,

### Feathers, & Scales

Explore animal coats and accessories. We put on jackets and scarves to stay warm, but our animal friends wear their gear all year long!

## December 5th -

### Rodents

Squirrels, beavers, and groundhogs to name a few. What do these animals have in common?
